ROTOR-200 "WET Deburring machine

Technical features:

Min/max round parts diameter	Min/max square parts size	Brush wheel diameter	Brush rotation motor	Orbital brush rotation motor	NET weight	Dimensions
10 / 210 mm.	10 / 148 mm.	250 mm.	3,0 Kw.	0,55 Kw.	1000 Kg.	180 x 180 x h.175 cm.

Description:

This rotary orbital deburring machine has n.2 independent motors: n.1 motor for the brush shaft rotary joint rotation and n. 1 motor for the rotation of the brushes with adjustable speed through inverter device.
Two main features make our machine unique on the market: this is a WET operated deburring machine working through powerful cooling liquid spray nozzle with automatic filtering and recirculation of the coolant ; moreover it allows to remove burrs and cutting edges on tube ends up to max diameter 210 mm.. Through a special centering device is possible to deburr bars, tubes and profiles with round, square or irregular section, both with perpendicular or angle cut up to 45 degrees.
Our deburring machine can use different types of brushes in relation to the metals to be processed or stock removal required, while number of brushes mounted on the machine may vary depending on workpiece dimensions from 2 to max 4 brushes.
On request is possible to offer along with the machine also customized clamping and feeding devices ; touch screen controller with PLC for working parameters programming is also available as extra option.

* Accessori a richiesta: vedi foglio successivo

ROTOR-200 WET Deburring machine for extremities (brushes NOT included) complete with inverter to adjust brush wheels rotation speed (800-2000 rpm) Built in accordance to CE safety rules n. 2006-42-CE	**€**	16.650,00

ROTOR-200 WET: Equipment on request

Pic.		Description	X		
1		Touch-screen display and PLC for programming		**€**	2.240,00
2		External cooling tank for mixture collecting and filtering with automatic filter paper rolling		**€**	2.920,00
3		Frontplate for irregular shape parts (instead of standard frontplate mounted on the machine)		**€**	830,00
4		Brush wheel dia. 250 mm. with steel wire dia. 0,35 mm.		**€**	219,00
		Brush wheel dia. 250 mm. with stainless steel dia. 0,35 mm.		**€**	226,00
		Brush wheel dia. 250 mm. with nylon wire		**€**	347,00
Prices referred to n°1 brush - Minimum quantity to be purchased: N°2 brushes
